For Immediate Release:

**VILLAGE OF EAST CANTON ANNOUNCES
FIXED RATE FOR NATURAL GAS AGGREGATION PROGRAM**

East Canton, Ohio (October XX, 2025) –Village of East Canton officials would like to announce that they have established a 12-month fixed-rate of \$4.50/Mcf for the village's natural gas program. The fixed rate will run from the December 2025 meter read through November 2026. Residents and small commercial customers can expect a letter from Constellation to arrive the week of October 27th. The letter will explain the rate, terms and conditions of the offer.

We are pleased to have been able to set this new rate for our residents and businesses. The fixed-rate will give them price protection and budget stability as we move into the winter months. As before, our program has no early termination fee.

Residents and businesses should carefully read their letter from Constellation. Anyone currently participating in the program will not need to take any action in order to continue on with the new term.

Those who are not currently participating, who wish to join the new term must actively contact Constellation and request to be enrolled. The letter from Constellation will detail the three ways to enroll: via mail by returning the reply card with your letter, online at www.constellation.com/oh-eastcanton using the invitation code on your letter, or over the phone at 855-875-9840.

We would like to remind you that the village's program is simply another option for you to consider, and it is important that you make yourself aware of the other options available to you, specifically:

- The Public Utility Commission of Ohio provides a list of other publicly available offers on their website, www.energychoice.ohio.gov. Anyone considering those supply offers should be aware of any early termination penalties, fixed monthly charges, or automatic renewal provisions that can quickly offset any perceived savings. Our program includes none of the above.
- The utility's supply rate the Standard Choice Offer (SCO) is a variable rate option. It follows monthly market conditions and trends up and down throughout the year.

Again, we would like to remind people that the program is simply another option for our residents and small businesses to consider in their efforts to manage their energy costs.

The Village is pleased to have made this program possible but asks that you do not call the Village offices. They are not equipped to handle a large volume of calls. **Residents should contact Constellation toll free at 1-855-875-9840 if they have any questions.**
